

**Electoral Statistics for The Moseley Communities Proposal
for the Two Member Councillor Moseley Ward**

Polling District	Total Expected Electorate
CSA	2,689
CSB	1,596
CSC	636
CSF	28 (small part)
CSG	1,513 (part)
CSH	1,236
CSI	1,478
CSJ	1,298 (part)
CSK	3,841
DDD	543 (part)
DEF	42 (small part)
DEH	1,414
DEI	202 (part)
Total	16,516

The DEI figure includes the 98 electors of 213 to 247 Wake green Rd, Green Road and the two cul-de-sacs north of Green Road, Keel Drive and Burke Avenue, into the Moseley Ward.

The CSJ figure excludes 50 electors of the South side of Brighton Rd and its cul-de-sac which would become part of Balsall Heath.

The LGBCE recognises that sometimes the Polling District Boundaries cut communities in two and has on occasions drawn its boundaries to match the communities and not the Polling District Boundaries as these are not directly part of the three criteria for establishing a boundary. We believe that there is a very strong argument for this to happen in some of the Polling Districts above in order to help maintain established community cohesion and for good governance. As they are minor amendments we have ensured that surrounding proposed Wards keep within their permitted electoral figures.
